PUBLIC QUESTION TIME: (maximum 15 minutes)

In line with Standing Order 3d-1 members of the public may at the invitation of the Chairman ask questions, make representations, and provide information to the Council in respect of the business on the agenda or any other Town Council services.

There were 4 members of the public present.

Mrs Eileen Sutherland asked Council what it was doing about climate change. Cllr McTaggart confirmed that this was being looked at alongside National Policy Framework and as part of the Neighbour Development Plan. Council is also liaising with Northumberland County Council on the new LCWIP plans to ensure they align with what the town needs. A 4-year plan is being proposed on the agenda and this will also look to demonstrate how the Council can incorporate this into the Councils long term plan. Cllr Rackham felt it was important that every Town Council integrates zero emissions into their policies and that Council should be supporting this. Further discussion is needed on how Council can do this on a practical level whilst acknowledging that small changes can make a big impact.

Cllr Joyce queried whether there is any scope to hold developers to account in terms of ecological and sustainable elements of their builds, such as replacing trees taken out and installation of solar panels. Cllr Rackham felt that the Town Council should be setting an example.
